

HI-VAC ROTARY

BUILT FOR LIFE

At Professional[™] our motto is "built for life". Everything we do is designed with this in mind. Great lawns with minimum fuss is what we strive to help you to produce.

The Professional[™] Hi-Vac is the ultimate work horse, designed to be used by commercial gardeners, farmers, foresters, in fact anybody who expect a perfect result time after time for a lifetime.

The Hi-Vac is designed and built to last and can even withstand punishment in harsh African conditions. The 2mm pressed steel chassis is best in class and every part of the machine is designed to last a lifetime.

Manufactured in our factory outside Pretoria, the Hi-Vac is now an industry standard. 40 Years of use and design improvement mean you can be confident that your machine should last a lifetime.

Whether you're a home owner or a large garden service, this machine is for you.

FEATURES

- Beautifully balanced for ease of use
- Simple height adjustment
- One piece, pressed steel chassis
- Heat treated cutting blades
- High veined blades that create a vacuum that reduces spilt grass
- Large wheels that smooth out even the roughest lawn
- A strengthened grass box (you can stand on it)

So, if you're tired of buying mowers every other year, you've got a garden service business or a large lawn, the Hi-Vac is a great choice.
